of Video Display Corporation (NASDAQ:VIDE) and manufacturer of the Marquee and ESCP lines of projectors, is pleased to announce signing of a Strategic Cooperation Agreement with 3D Perception of Asker, Norway, a supplier of unique digital technology for

geometrical correction of projected images. The execution of the Agreement facilitates close cooperation of sales and marketing activities, as well as joint development of new products for the simulation, training, and command and control marketplaces.

"This Strategic Cooperation Agreement recognizes the complimentary capabilities of both VDC Display Systems and 3D Perception," says Mike Raines, VDC Display Systems Vice President of Business Development. "Through this agreement, our marketing and sales groups will continue to approach their respective markets while our technical teams are establishing close cooperation to undertake the design and manufacture of new next-generation display system products, further empowering our customers to integrate industry-leading visual system solutions."

Knut Krogstad, Managing Director of 3D Perception, adds, "This agreement will provide a means to expand our product solutions further within the US marketplace, while supplementing the existing 3DP product line with new CRT and LCoS projection technologies from VDC. Working with VDC Display Systems is a key strategic step for our company and we are excited about the technical cooperation for the design of new projection technologies."

Please stop by VDC Display Systems' Booth #1573 and the 3D Perception Booth #1772 at the 2006 I/ITSEC Conference held on Dec 4-7 at the Orange County International Convention Center in Orlando, Florida.
